## Steps and Schedule

Following is a short description of the evaluation process and a tentative agenda:

- Stakeholder and Indigenous communities/peoples' consultation – Prior and throughout the fieldwork, the team will contact local stakeholders and Indigenous communities/peoples regarding the forest management activities of the certificate holder in communities. This can include private interviews and discussions as well as public meetings.
- Field visits – During **June 17-20**, the audit team will conduct field visits of recent and active forest management operations on the certified area.
- Final evaluation briefing – Prior to departure the team will meet with the certificate holder's forest managers and other parties to finalize their data collection and present preliminary findings.
- Draft report production – The audit team will produce a confidential draft report that will be circulated for comment to the certificate holder. This should occur within one month after completion of the evaluation.
- Certification decision – Upon receipt of comments on the draft report from the certificate holder forest managers, and other general stakeholder and Indigenous communities/peoples' comments, Preferred by Nature will reach a certification decision. Barring unforeseen obstacles, this should occur by end of **August 2024**.
