What documents are relevant to indicate timber legality in Angola?

Key Documents for Angola

Below are listed examples of essential documents which can support the mapping of supply chains for traceability purposes or aid in mitigating legal non-compliance risks for timber supply chains within Angola.

A description of the document is attached to each image of its contents. It states to whom the document is applicable, who it has been issued and signed by, as well as important considerations when checking the validity of the document as part of the due diligence process.

Key Documents for Angola	3
Annual Forest Harvesting License	4
Environmental Operating License/Permit for Installation.....	6
Environmental operating license (annex).....	8
Loading Certificate	9
Certificate of Origin	11
Export Certificate for Forest Products.....	13
Phytosanitary Certificate	15
Product Certificate.....	17
Transit Guide.....	19
Export and Import License.....	21
CITES Certificate/Permit.....	23

Annual Forest Harvesting License

Applicable for: all holders of Annual Forest Harvesting rights

Purpose and content of the document: The document provides evidence the License holder has the right to harvest specific timber species at a certain allowed volume from a defined forest area. This document also contain the license validity and duration.

Holder of document: Forestry Development Institute (IDF) and Company that has the right to harvest.

Signature required by: the General Director of the Forestry Development Institute (IDF)

Key considerations when checking the document:

- It shall be signed and stamped
- The information on the document should always be cross-checked with information on the related Certificate of Origin and the Transit Guide, such as:
 - the name of the person or entity specified on the license - licenses are not transferable to a third party.
 - Volume
 - Species
- Verify that the species listed on the document are not protected or prohibited to harvest.
- Volumes permitted should be cross-checked with trade/transport documents to ensure the quantity harvested is in line with the quantity moved from forest to first transformation entity (sawmill).

Timber Legality Risk Assessment indicator which this document is relevant to:

- 1.3. Management and harvesting planning
- 1.4. Harvesting permits
- 1.5. Payment of royalties and harvesting fees
- 1.8. Timber harvesting regulations
- 1.9. Protected sites and species
- 1.10. Environmental Requirements
- 1.13. Customary rights
- 1.17. Trade and transports

Environmental Operating License/Permit for Installation

Applicable to: harvesting or processing companies (sawmill or secondary industry)

Purpose and content of document: The document are to verify that any activity (harvesting, construction of sawmill/industry) affecting environment aspects and complies with the regulation regarding the environmental impact assessment process in Angola. Document should state the name of the project/activity, Province, category of activity (e.g., harvesting), the issue and expiration date.

The annex of the document is issued for a specific valid period, after control and approval by the authorities to show that the operational project follow the required process of assessment of environmental impact. The document includes the description and category of the project, the issue and expiration date, process of Environmental Impact Assessment, process of public consultation, mitigation measures.

Holder of document: logging or processing company

Signature required by: the Minister of Environment or his/her representative

Key considerations when checking the document:

- The document shall be signed and stamped
- The document date shall be valid
- All required information shall be listed

Timber Legality Risk Assessment indicator which this document is relevant to :

- 1.3. Management and harvesting planning
- 1.4. Harvesting permits
- 1.10. Environmental requirement

Environmental permit for installation

Loading Certificate

Applicable to: timber exporting company

Purpose and content: The document is mandatory for all shipments from Angolan ports. The document lists exporter and importer details, destination, and volumes of goods shipped.

Holder of document: Timber exporting company and Angola National Shipper's Council

Signature required by: Angola National Shipper's Council

Key considerations when checking the document:

- Are all required information included?
- Has the document been signed and stamped by the Angola National Shipper's Council?
- Are the products included on the document similar as the ones traded/sold?
- Are the volumes included on the document similar as the ones traded/sold?
- Is the date of issue coherent with the date of shipment?

Certificate of Origin

Applicable for: Timber exporting company

Purpose and content of document: The document confirms the origin of the shipment. It includes the certificate validity date, forest company name, transport company and destination, province of origin, product description (including volume, name of the product, quantity).

Holder of document: Ministry of Agriculture and Forest/ Forestry Development Institute (IDF) and timber exporting company.

Signature required by:

- Signature of the Holder of the forest harvesting company or the plantation owner.
- Signature and official stamp of the Provincial Head of Department of IDF.
- Signature of the official who completes the certificate.

Key considerations when checking the document:

- Has the document been signed and stamped?
- The content of the document should be cross-checked in combination with the Annual harvesting License and the transit guide – check that the volume and species in all documents correspond
- Check that the signature of the checkpoint or forest product warehouse are present in the case of timber products are sold or being transported for sale.
- Check that the date of issue is coherent with the date of shipment

CITES Certificate/Permit

Applicable for: timber (CITES species) exporting or importing company

Purpose and content of document: Issued by the Ministry of the Environment. Demonstrates that CITES Management Authorities have approved the export. A CITES permit is valid for a maximum period of 6 months. It cannot be renewed. The document shows the permit number, validity period, exporter and importer details (name, address and signature), special conditions of the permit (e.g., not transferrable and shipment is made in single consignment), purpose of transaction, security stamp, scientific and common name of plant, country of origin, place and date of issue, export/import endorsement (port of export, date and signature and official stamp), and bill of lading or air waybill number.

Holder of document: Timber (CITES species) exporting or importing company and Ministry of Environmental

Signature required by: Head of the National Administrative Authority of CITES at the Ministry of Environment.

Key considerations when checking the document:

- Check that the products are exported within the issue and valid until date included on the permit
- Check that the document is signed and stamped
- Check that the permit contain the name and signature of the applicant i.e., the person who require the permit to export
- Check that the permit contain the port of export
- Are the species and volumes declared similar to the products actually traded?

About LIFE Legal Wood

[LIFE Legal Wood](#) is an initiative supporting the wood and wood products industries across Europe with knowledge, tools and training in the requirements of the EU Timber Regulation. Knowing the source of origin for your timber product is a legal requirement that benefits for the environment and competition. The initiative is funded by the LIFE programme of the European Union.

LIFE - Support EUTR II - LIFE18 GIE/DK/000763

Preferred by Nature (formerly NEPCon) is an international non-profit organisation working to support better land management and business practices that benefit people, nature and the climate.

We do this through a unique combination of sustainability certification services, projects supporting awareness raising, and capacity building.
